About Me:

Driven by the urgent need to accelerate Africa's development, I am an IT student dedicated to solving complex problems through AI and automation. My passion lies in bridging the gap between technical theory and sustainable impact, viewing every line of code as a tool for socioeconomic empowerment. I am committed to leveraging emerging technologies to engineer practical solutions that spark real growth across the continent.

Education:

2023 – present	BSc. Information Technology	Karatina University
Degree		

Skills:

- Workflow Automation (n8n)
- Python for Data Science
- GitHub and Git
- Basic Machine Learning

Certifications:

- Python for data analytics – IBM
- Introduction to Machine Learning – Imperial College London
- Google Cloud – Google

Projects

- Customer Support agent using n8n
- Retrieval Augmented Generation (RAG) Chatbot
- MYkeja – solves the problem of exhaustive house hunting (Local)
